Barrier, Privatery E., 1978.
CHAS. B. BINHOP, Transcript.

is Orms from this named you Strathauts .- The wing simple resign is a sure and certain cure charm. Mr. Lucas has spent a large amount of money on his new shop, but he has a first-class establishment, to show for it. He is now prepared to do any kind of work in wood that the most fastidious may require, and that too at the shortest notice. His machinery for working in wood is of the most approved and latest patents, all driven by a steam approved and latest patents, all driven by a steam

becomes ity of the simple range.

steady and certain, and is but the beginning of the end, as we fully believe. The next 18 months with no doubt be marked by like improvements in other parts of the city. Our progress seems to be upward and onward. In this connection, we will mention the new provement which deserves notice. It is the new gas works for the use of the Hawaiian Post Uffice—which has berrefore been lighted by the did ordinary oil impre-recently fatted up by the government. The apparatus and fittures are all in position and were tried on last Monday afternoon

NOTES OF THE WEEK. The Amsteur Musical Society of Bonolulu. will meet for practice at the Lyceum, on Nunant

The non-arrival of the steamer City of New York is undoubtedly due to the delay of the Australlan mail, caused by the severe weather on the Atlantic and in the East.

from Puget Sound, and a brig supposed to be the Morning Star, from Micronesia. No signs of the mail steamer City of New York. POSTPONED .- The sale by Mr. E. P. Adams, of that valuable tract of land known as the abopusa of Poneps, and altusted at Kohala, Hawali, has

As we go to press this morning several ves-

been pretponed from the 24th last, to Monday, March 10th, at the same hour and place. The French bark Alphonsine Zelle will be disputched by Irwin & Co, for San Francisco today, with a full cargo of sugar. This is the first vessel with a full cargo of sugar that has left this port since the departure of the Adelaide Cooper reveral weeks ago.

> Mr. Robler gave a performance on Saturday evening, assisted by the amateur gymnasts, and Mr. Snow and wife of the California Aggregation, to what we are sorry to say, was a small andience. The externalmment by Mr. Kohler was worthy of a much more liberal patronage; but "sich is life."

There was an entertainment at the Lyceum on Nuuanu street, on Saturday afternoon and evesing, the 22d just., for the purpose of raising funds to repair the Kawaiahao church, which was well at-tended and the proceeds were quite up to the expectations of the friends who got up the entertain

The rains have been so general throughou the islands the past few weeks, that the planters and others cogaged in agriculture, are jubilant over the sure prospect before them of no abundant crop of everything in the shape of produce from the soil. The news we have to the above effect is very gratifying to all who really desire the prosperity of Hawaii nel.

AN INPANT CHIEFESS .- The Young chiefess Owana wife of A. J. Cartwright, Jr., was safely delivered of a daughter on the 21st inst., at Waskiki. By the birth of this infant we have another scion of the rows! house of Kcous; Mrs. Owana Cartwright belog the fifth in descent from Keons, through his sidest son Kalokso-Kamalie, a half brother of Kamehameha L

We call the attention of our readers to the evertisement of Mr. Wm. Mann, in another column of to-day's issue, announcing his ability to aumor to-day's issue, announcing his somity to supply this community with Boston brown bread on Wednesday and Saturday mornings of each week. The bread is excellent, being equal to that baked in Boston, and it is very wholesome food. All should try Mr. Mann's baking.

Last night we heard of a couple of tramps who paid a visit to a grocery store on Queen street, kept by a Chinaman, and after calling for some elgars, deliberately struck the owner over the head with a bottle, demolished a show-case and then de-eamped. The Chinaman immediately called in the sid of the police, but the scoundrels had by that time made good their escape.

The temperance meeting at the Fort Street Church last Sabbath evening, we learn was well attended; but what was done or who took the lead on the occasion, we cannot say, not having been present, nor having been informed on the subject. We wish the cause of temperance God speed, and whenever the friends of the cause require our services we will willingly contribute our mite, if they will only do us the honor to let us know their wishes in time to give them publicity.

Supper Death.-One day last week a native Went into a Chinese restarant on Nauanu street about 9 o'clock a. M. and called for a cup of coffee. The coffee was brought to him and he proceeded to drink it, but before he swallowed one-half the contents of the cop his head fell forward on his hands on the table at which he was sitting, and in a few minutes after he died, without a struggle We understand the man had been in the Hoseita

Luproli's new tent on the Esplanade was lighted up on Saturday evening hat, and looked well. We dropped in a few minutes and found the circus ring finished and the 119 oll lamps distributed around the amphitheatre so as to produce a brilliant light, sufficient to afford the audience plenty of opportunity to see the whole performance without the elightest inconvenience. His first performance at the "tent pavillon" will be given on Thursday evening, with a full company, which i duly announced by handbills. We have the people will turn out and give Mr. Luproli a good lift, as he deserves to be patronized for his plack, as well as the taste be has displayed in the arrangenent of the accommodations for the public. Go and see the circus.

SOMETHING NEW!-We understand that Mr. A. Wilson Snow who has been for sometime past connected with the management of the Royal Hawaiian Theatre, and has so successfully extered to the public favor in the way of refined entertainments is about to give the amusement-loving population of this city an opportunity of witnessing something new and wonderful, "The London Ghost Show which will arrive by steamer City of New York. It is entirely different from the old stereotyped routine of theatrical entertainments and will, we understand be produced here with the same me-chanical effects as used by Mr. Scow in the same production at the Centennial Exposition, held at Philadelphia. We have seen this mysterious and bewildering exhibition in San Francisco, and pre-dict the most unbounded success for Mr. Snow and "his Chosts."

> The grand art union drawing for the splen did reseweed plane-forte, came off at Mr. Bartow's Auntion store on Monday evening last, in the presence of a large number of persons. Samuel Parker, Esq., beld the lucky number and the plano valued at \$1,100 was awarded to him. We congratulate our friend Mr. Parker on his good luck; and outside of the scifishness that prompts us all, of a desire to have been the lucky one on the occasion, we do not know any man whom we would be more pleased to see take the coveted prize, than the generous whole souled Samuel Parker, Esq. The drawing was conducted with the utmost fairness and was ectirely satisfactory to all present, whether ticket-holders or spectators. We have already spoken in these columns of the rosewood plano, which was drawn on last Monday evening, and now that it is the property of another than the importer, Mr. Wells, we repeat, that in our humble judgment, the piano is one of the best if not the very best instrument ever brought to these Islands.

visit, on Monday last, to the new work shop re my drick, and one within the reach of all | cently erected by Mr. George Lucas, on Fort St. We exprise it for special benefit of which is one of the most complete establishments all stands with the disease called a cray. on these Islands. A few months ago Mr. Lucas ing to a motolle beverages. The thing is so reason- went to the Coast, where he purchased a large the the deliest intellect can comprehend it. amount of the latest styles of machinery suitable for The in it a man will only drink pure cald water, his business as a carpenter and builder. On Monday last this new machinery was put in motion at about of clock a. M., and everything worked like a charm. Mr. Lucas has spent a large amount of charm. Mr. Lucas has spent a large amount of approved and latest patents, all driven by a steam a heavy man writes. I drank more integiengine of twenty-four horse power. Mr. Lucasideserves the thanks of the people for the intelligent
enterprise he has displayed in building and equipping so complete an establishment and many ping so complete an establishment, and we trust that his enterprise and outlay will be amply rethat his enterprise and outlay will be amply rewarded by a liberal patronage. We should not for get to mention that Mr. Lucas has procured a telephone, which he will erect in a few days, connecting his shop on King street with the work shop
on Fort street. This arrangement will save a good on Fort street. This arrangement will save a good deal of time, and keep everything running in harmony between the two piaces of business, and have been pass and remained to be taken to opportunity to be the good been pass and remained to be an expectation of water, and he can be good been and remained to be an expectation of the future. We are pleased to note the other improvements in the neighborhood of the other improvements in t

and gave satisfaction. There are 14 jets inside and two outside the Post Office, so that there will be light for the employees inside as well as the Public outside. This is a handsome improvement. "Let edly been an utter failure, and it has been stated on there be light.'

FINE MULES .- On Saturday last on the Esplanade.

near Laine's new Feed Store, Mr. E. P. Adams sold at

auction 40 California bred mules, received per bark

Edward James to G. W. Mactariane & Co., which realized it is said very fair prices, ranging from \$110 per head to \$97. These mules were all S years old, unbroken animals, and arrived in very fine order. A pair of large Kentucky mules grey matched, sold for \$500 the pair to the Hawaiian Goverument, and a large Kentucky mule, 16 hands, sold for \$300 to Hon. H. A. Wideman for his Wainnae plantation. We clip the following in reference to this sulpment from one of the California papers : The leading business on the Pacific Coast devoted The leading business on the Pacific Coast devoted exclusively to the importation and sale of Live Stock, Carriages, Harness, Merchandise, etc., is undoubtedly conducted by Messrs. Bowley & Bro., successors to Crego & Bowley, of this city. The firm has two separate establishments—the Carriage and Harness repository at Merchants' Exchange building, California street, and the spacious amphitheatre on New Moutgomery and Mission streets, which is elegantly fitted up for a stock salesroom, the auctioneer's mart in the centre of the building being encircled by speeding tracks, roomy stables, spectator's seats, offices, etc., while there is ample platform room for exhibiting the extensive line of

platform room for exhibiting the extensive line of Carriages, Burgies, Harness, etc., imported and for Carriages, Burges, Harbess, etc., imported and for sale by this enterprising firm.

It is safe to say that Bowley Bros, have negotiated the sale of more thoroughbred stock than any firm west of the Rocky Mountains. A large order for the Sandwich Islands has just been filled by them, and Sandwich Islands has just been fined by them, and they have now at their Amphitheatre Stables, 104 males, California raised all of them three years old and sound, out of first-class mares; also 4 jacks, imported from Kentucky, at a cost of \$750 each, which are to go to Honolulu for work on the sugar plantations. The jacks and half of the mules will be altipped to Geo. W. Maciarlane & Co. on the last Plantal Laws which sails, for Honolulu on bark Edward James, which sails for Honolulu on Monday next. The thoroughbred stallion "Base-wood" and a fine "Alexander" trotting mare were also recently forwarded to the Islands by Bowley

All parties interested in live stock should call at Bowley & Bro's salesrooms, corner New Mont-gomery and Mission streets, and see the animals now awaiting shipment.

News Items.

During the month of January last, the following States elected United States Senators, viz: Pennsylvania, Hon. J. D. Cameron, re-elected for six years; New York, Hon. Roscoe Conkling, re-elected for six years; Connecticut, O. H. Platt, Esq., for six years; Himols, Gen. John A. Lugan, for six years; Missouri, Gen. James Shields for the short term, and Col. George G. Vest, for the long term; North Carolina, Ex Governor Vance, for six years; Fiorids, Wilkinson Call, for six years; Michigan, Hon. Matt Carpenter, for six years, In the foregoing list there are fire Republicans and four Democrats. The terms for which they have been elected commences on the 4th of March 1879, and runs for six years, except that of Gen. Shields, who has been six years, except that of Gen. Shields, who has been elected for a term less than six years, to fill a va-cancy we believe. It is somewhat remarkable that this is the third time Gen. Shields has been elected to the United States Senate, and each time from a different State: First from Illinois, then from Min-nesota, and now from Missouri. This is a high com-pliment to any man, and we know that so far as Gen. Shields is concerned it is well deserved, for a purer or more upright patriot, soldier and gentleman does not breathe than the gallant James Shields. He fought through the Mexican war, in which he was wounded by a bullet entering his left breast and pass-ing round his body; his recovery on that occasion was considered almost a miracle. In the war of the rebellion he commanded a division on the upper Po-tomac, and at the battle of Kernstown, near Win-chester, defeated the Murat of the confederate army -Gen. "Stonewall" Jackson. In this fight Gen. Shields was wounded, immediately after the action commenced; he was struck by a rifle ball, breaking the right collar bone, rendering his arm useless, bu he did not leave the field, although thus wounded, till the battle was over and the victory won. It is refreshing to know that the generous people of the great West are ever ready to recognize and reward the patriot and soldier, whenever they have an oppertunity, and this they do not from mercy or selfish motives, but from a generous sense of honor and chivalry that distinguishes them from the people of the older Eastern States, where money is the lever that too often elevates men to position, and not ser-vices rendered their country in times of danger.

The contemplated exhibitions in Australia—at Sydney, 1879, and Melbourne, 1880—are attracting attention in Europe. The London Times enlarges upon the extraordinary developments of the colouies. A private letter from General Grant states that he still intends to travel eastward through India and China, thence home by the Pacific and San Francisco, in about a year. Some ladies in New York City have formed an "Anti-Probate League." Its object is to abolish the Probate Court process, as far as wills and widows

Even farmers in England complain of hard times, and of the foreign supplies of grain, and other staple goods which compete with English products. Not-withstanding prices are high.

Hundreds of people in Sheffield, England, are without fuel, and dependent upon the charity of their neighbors for subsistence. The Mayor has called a public meeting to device means of relief.

Garibaldi writes to a Sicilian correspondent as follows: -- The fature of the world is Republican. Say so openly to Scilian young men. For the present it behooves us to support the Cairoli Ministry." It is stated that General Thomas Ewing and Sen ator Jones, of Nevada, have purchased the James River and Kanawha Canal in Virginia. The stock

The body of St. Francis Xavier was exposed in the Cathedral at Genoa, in presence of many Catho-lics from various parts of the world. The ceremonial was impressive, and excited much religious enthusi-

of the company has been recently two cents on the

The influx of immigrants into the United States from Europe is extraordinary for this period of the year, and the indications are that immigration on a arge scale is beginning.

The Congregationalists claim 366,000 members. At the beginning of this century the average annual contributions for missions was S cents a member. Last year it was 7 dollars and 52 cents. In New York, Ohio, Pennsylvania and Indiana, if a woman marries a man who has already, unknown to her, a wife still living, this second wife's children can inherit their father's property equally with the

children of the real wife. During the year 1877, 2822 drowned bodies were brought under the notice of coroners' juries in England and Wales, 522 bodies were of the female sex and 805 were the bodies of children under twelve years old.

A revolution in dancing circles is promised in Paris this winter. Quadrilles and cotifions are to disap-pear, and to be replaced by stately ballets, such as were danced in the times of the three last Louises. Mr. James Gordon Bennett, proprietor of the New York Herald, has started from Paris for St. Petersburg, on his way to Afghanistan, taking with him M. Ivan de Woestyn.

It is hard to say whether the rabbit plague is worst in South Australia or Victoria. Most distres-sing reports as to the destruction of crops are in cir-

The London Times admits that "a modification of the Victorian Constitution is acknowledged to be de-sirable, and a reasonable reform ought not to be im-

"Hygiene of the Brain" is a curious work jus published in America, bearing upon subjects suggested by the title, in which many distinguished persons describe their physical and intellectual habits. A company with 3,000,000 dellars capital has been formed at London, Ontaris, Canada, to make india

rubber from the juice of the milk weed. In proportion to the population there were fewer marriages in Massachusetts in 1877 than during any year in which statistics have been kept. In the New York penitentiary there are 27 ciergy-men, 42 lawyers, 15 doctors, and 3 printers. As usual, the printer is behind.

The Quarterly Journal of Science says that Pheips' duplex telephone is as far beyond Beli's as a modern Westly-Richard's contral fire breech loader is beyond The Grand Lodge of Chinese Masons met at Val-lejo, California, on the 1st of December, and was at-tended by many Chinese dignitaries from various

The New York Times employs a lady as live-stock reporter, and this lady, Miss Midy Morgan, has recently sent a description of the Islington Cattle Market to that paper.

A report from Port an Pair, Hayti, says : Many persons and houses were swept away by the river which changed its coarse and crossed the town. St. Louis del Norde, about three miles from Port an Paix, is reported entirely destroyed.

CREMATION.—A decree legalizing cremation of human bodies went into force in Goths, on Gotober lst. A special edifice has been accessrated for the purpose of cremation.—[Forney's Progress. Judge silten has increased the reward for the arrest and conviction of the Stawart body-stealers to
\$50,000. It is strongly denied that the remains have
been found or that their location is known.
The collector at Boothbay, Maine, has among his

In a commercial sense the great ship has undoubtedly been an utter failure, and it has been stated on good authority that between 1853 and 1869 one million sterling had been lost upon her, by the various proprietors who have attempted to work her. Nor is it difficult on any impartial review of her design and aubsequent history to discover the cause of this failure. First of all, Mr. Brunel, despite his remarkable foresight, did not realise the changes which have been produced in a single generation by the progress of steam navigation. Coal mines have been opened up in all parts of the world; and even if it once may have been, it is now no longer necessary or desirable have been, it is now no longer necessary or desirable for a steamer to carry coal for a return voyage, either from India or Australia; in fact, the proverbial folly of "carrying coals to Newcastle" may be applied to an Australian as to an English coal-field. Further, the improvements in marioe engineering which have been introduced since the Great Eastern was designed have readered possible large convenies of coal conhave rendered possible large economies of coal con-sumption. It is said that the engines fitted to the ship consumed about 350 tons of coal per day when the speed averaged about 13 knots per hour; but if the modern type of compound engine had been fitted the rate of consumption would not have exceeded 180 tons. Mr. Brunet appears to have been too sanguine in his estimate of the speed and coal consumption, and that is scarcely surprising when the entire de-parture from previous examples of steamships is re-membered. He hoped that the ship would make the passage to Australia in 35 days, which would have required an average speed of 14 knots per hour, and this speed was to be purchased by the consumption of 200 tons of coal per day. With engines of the modern type his hopes may have been more fully realised, and it has been reported that the present p pristors (1878) of the ship have even contemplat compounding the engines in order to save fuel, but no change of this kind has yet been begun. The chief cause of failure in a commercial sense was, however, the practical impossibility of securing such an enor-mous complement of passengers and cargo as was estimated to be necessary in order to cover working ex-penses and earn a profit. Six thousand tons of dead weight was the quantity of cargo required; but to ship such a quantity must at any time have involved serious delays in port, and as a matter of fact me chants and insurers were not ready to run the risks involved in embarking so much in a single buttom On the whole, therefore, two or three steamers of moderate size, and with modern types of suginer, could be more profitably employed to carry the same number of passengers and the rame aggregate dead weight of cargo as those for which the Great Eastern was designed. During the last three or four years strenuous efforts have been made to improve the steamship service between Britain and Australia, and competition has been keen, not merely between sailing ships and steamers, but between different lines of steamers. Some of these latter now make the passage—via the cape—in from 40 to 45 days, and it is proposed to abridge this time to 36 days; but no one has imagined it desirable to employ ships exceeding about one-fourth the weight of the Great Eastern.—

Great Industries of Great Britisis. Great Industries of Great Britain.

By the arrival of the steamsuip City of Pekin, s San Francisco, we have Hongkong dates of N ber 17, and Yokohama dates of November 25. CHINA.—The Marquis Tseng, who has arrived at Shanghai, en route to England, to undertake the du-ties of H. E. Kno as Chinese Minister in London and Paris, has visited the Roman Catholic establishments at Siccawei. He will probably take his departure for Europe in about three weeks. It is stated that a loan has been negotiated between Taotai Hoe and the Hongkoug and Shanghai Bank for two millions of tacls; the rate of interest is 92 per cent, per annum. The Superintendent of the Dind-ings, near Perak, has been attacked by a gang of Chinese robbers, and killed. His wife and another lady were also severely wounded. The total loss of the Italian barque Bianca Perties, Captain Taneredi, while on a voyage from Nagasaki to Hongkong, is reported lost. All are said to be lost except a boy. A serious Hakka rising has taken place in the Island of Hainan. Several towns have been taken by robels, and their inhabitants massacred. Chinese troops are being dispatched to quall the rebellion. Another re-bellious movement is reported on the borders of Kang-si and Tonquin, where, it is said, a Chinese general has taken up arms on his own account against the King of Anam, his object being to enforce his alleged right to occupy the throne of that sovereign. Japan.—The financial embarrassments are bur-densome, and are likely to be still further complicated by the occurrence of a misonderstanding with the government of Corea, which may render recourse to arms a necessity. On the 21st instant the Hugh-Kan, an ironelad man-of-war, sailed for Corea, han, an ironelad man-of-war, sailed for Gorea, with Mr. Hanabusa, Secretary to the Department of Foreign affairs, as an envoy accredited with powers to settle the difficulties which have arisen. Should his mission be fruitless, strong measures will very probably be enforced, and a war may follow in which the Coreans are likely to receive the chastisement they deserve. The epidemic of cholera, which committed extensive ravages last year in Japan, has given rise to a strongly expressed desire on the part of the Government to establish quarantine, or some system of preventing the importation of disease. A somewhat severe shock of earthquake was experience at 11.7 p. m. on the 22d of November last; the shoc was very distinctly felt by the vessels in the harbo-

1 HAVING JUST TURNED OUT A PINE Wagonet for HIS MAJESTY KING RALAKAUA. Wagonet for HIS MAJESTY KING KALAKAUA, and no newspaper man or reporter having said one word in regard to it, I shall, therefore, blow my own horn. It is only recently that Cartiages have become so common that almost every hosseholder has got oue.

IN THE SCRIPTURES Carriages, or Charlots, are frequently aliaded to. Upon the flight of the Israelites from Egypt, King Pharach pursued them with Six Hundred Charlots, all of which were swallowed by by the waters of the Red Sea. And when Israel made up his mind to pay his son Joseph a wist, Joseph telegraphed the old gentieman to come down to Goshen and he would meet him there and drive him down to Egypt in a Jaggrey (wagon).

Charlots and Carriages were mostly used by Kings and randees on state occasions.
The Greeks and Romans had Charlots; but strange to any, it was as late as the skineauth century, in 1530, that Carriages were introduced into France, and at that date only three were known in Paris, then quite a large city.

M. J. RONE is now prepared to furnish almost any kind of vehicle that may be ordered of him; has got some of the Best Skilled Mechanics that can be had in any country.

Also has received a large invoice of ALL KINDS OF
STOCK, such as Hobs, Spokes, Fellows, Shafts, and one
thousand other things too numerous to mention. But to
convince yourself, just call and C.

On account of Cheap Reuts and my economical way of living. Will soon have a large lot of LIGHT BUGGIES from a Celebrated Manufacturer of Camdeo, New Jersey, to sell on account of whom it may concern. 734 3m BROWN & CO.,
